

THE LONG LENGTH STEPPED ROOF FOR ADDED BEAUTY AND PERFORMANCE

FEATURES AND SPECIFICATIONS:

The **KaWa®** Homage is a 5-corrugation profile offering the benefits of a long length roof with the aesthetics of roof tile appearance. It is ideally suited for residential and commercial buildings.

ADVANTAGES:

- The long length sheets eliminate the need for multiple end laps. This eliminates any potential leaks through the roof.
- Shorter installation time is achieved due to the long length sheets, resulting in significant reduction in labour costs.
- The lightweight steel sheets require only a light supporting structure or less supporting members, thus reducing the overall building cost.
- With custom cut long length sheets, there is no wastage at end laps.
- The rugged corrugations of the **KaWa®** Homage make the roof distinctively attractive.
